

18 May 1972

SUBJECT: Approval to Publish Manuscript

TO: Assistant Deputy Director for Intelligence

FROM:

CRS/DPSD
Room 1E 4822

STAT

1. Attached is a copy of a study titled [redacted] which I am submitting for approval to publish, subject to circumstances outlined below. In view of my pending retirement, 30 June 1972, I request this procedure be expedited.

2. This study was researched and written by me over a period of about four years during spare-time. All sources and other material used as background or for reference are unclassified, available to anyone. My Agency connection during this time afforded me an opportunity of viewing many [redacted] films and a number of television programs. However, there is nothing in this study that refers to the Agency or to my connection with it.

STAT

3. I have two possible long-range objectives for this study:

- a. Submitting it to an editor of a publishing organization or to a literary agent to determine its acceptability or suitability for publication.
- b. Submitting it to a college or university as the basis for work toward an advanced degree.

I do not contemplate actually carrying out either of these objectives at the present time, or in the immediate future, but I would like to have the possibility open to me. As it stands, the study is in a manuscript state and would require re-writing, corrections, additions, and other editorial work. I believe that a final chapter would be required, that sources will have to be organized, and photo reproductions of listed illustrative material made. A publisher or editor, assuming their interest, would undoubtedly have other suggestions. In any case, the essential tenor of the study would remain about as it is.

CONCUR:

CHIEF, CRS/DPSD/PSB 20 FEB 1973

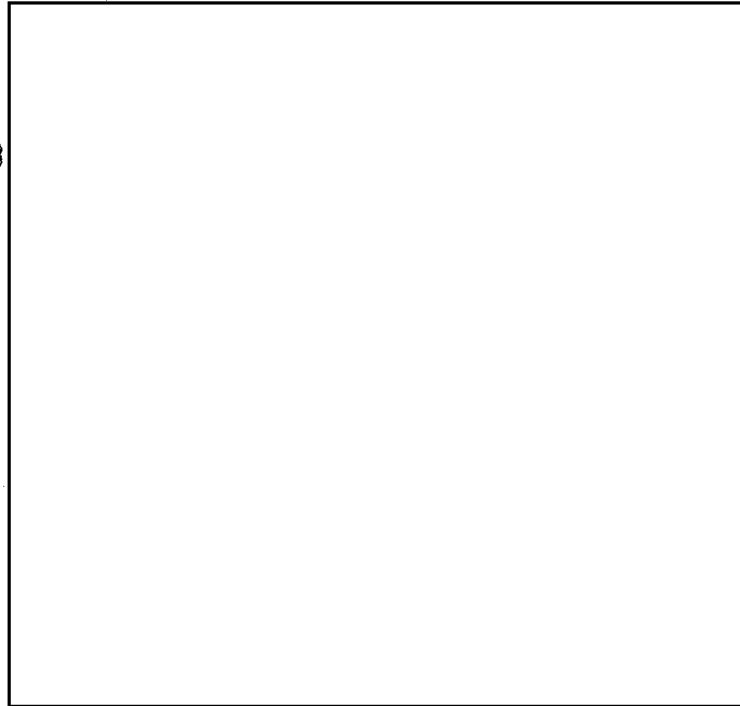

DIRECTOR, CRS 20 FEB 1973

DIRECTOR, SECURITY

~~SPECIAL~~ ASSISTANT TO DCI

APPROVAL:

ASSISTANT DDI 13 March '73

20 February 1973

Attachment to Memorandum from [redacted]
to ADDI, Subject: Approval to Publish Manuscript

STAT

1. I recommend approval, subject to changes in paragraph 2 below, of the subject manuscript for publication. The piece would require considerable work for approval if [redacted] were still employed here, but he has retired. The question of quality of the manuscript, consequently, does not appear to be particularly relevant. The paper complies with the requirements of [redacted] except as noted below.

STAT

2. The approval is subject to three changes:
